

TravelCo Analytics

Business Intelligence Dashboard

~ designed by Jyoti Parajuli

Data without direction is just noise.

TravelCo Analytics tracks 175 bookings, 125 customers, and 20 destinations across 2025 — from first booking to final refund, across 6 report pages.

Every page answers a question. The last one tells you what to do next.

Business Recommendation

Page		Category	Recommendation
Executive Overview	>>	Loss Risk	15% bookings cancelled — add 20% non-refundable deposit at booking.
		Growth	Launch early-bird offers 45 days before off-peak months.
		Action	If gauge below 70% by Q3, push flash sales on luxury packages.
Customer Insights	>>	Retention	Offer Silver members 10% off on 3rd booking to push tier upgrade.
		Loss Risk	Solo + budget has lowest spend — shift ad budget to couple & family.
		Growth	Create exclusive bundles for family & couple segments.
Destination Analytics	>>	Growth	International destinations earn 2x — increase their marketing
		Loss Risk	Cut inactive packages for low-demand destinations.
		Action	Destinations below 4.2 safety rating — partner with tourism boards.
Package Performance	>>	Growth	Luxury margins 25–32% vs 12% budget — upsell standard to luxury.
		Loss Risk	Budget + flight compresses margins — reprice or remove flight.
		Retention	Extend full board meals to standard tier — improves ratings.
Payment & Refund	>>	Loss Risk	If refund rate exceeds 5% — enforce tiered cancellation policy
		Growth	Partner with PhonePe/Google Pay for cashback to drive more bookings.
		Action	Send Whats-App/email retry within 2hrs of failed payment.
